

Camelot's Family Association provides therapy and education to families about appropriately dealing with their feelings surrounding the addict and support through the treatment process.

Camelot offers **NO COST** assistance to families and significant others for those who are suffering with a drug misuser at home. Our Family Support Association meets weekly. Help Camelot help your family and loved one by bringing anyone who is concerned along. **BREAK FREE** and help them **RECOVER**.

Camelot is a **DRUG FREE** residential therapeutic community program with an average length of stay is between 9-12 months.

# Camelot

A Resourceful Approach For  
**Enduring Recovery.**

# Our Mission:

**Luke J. Nasta**  
Chief Executive Officer

To us at Camelot - the substance use disorder treatment program that opened its doors to troubled youths in 1971 - the name engenders a great deal of pride. Yes, we're very proud of the accomplishments that have ensued since a group of sincere Staten Island professionals and business people of the former North Shore Kiwanis Club of Staten Island - in response to a real need, used grass roots influence to create Camelot.

I can tell you from my experience with those reliant on substance misuse for more than four decades, nothing comes easy, especially recovery. There's no magic, no gimmicks...Just a lot of hard work.

That's what Camelot is about; making a dramatic difference in people's lives. The entire staff is committed to bringing the hope of an independent future to all those who want it.
